Project:

ISO/IEC JTC1/SC22/WG21 14882: Programming Language — C++

Audience:

WG21

Table of Contents

1 Introduction

2 Voting

2.1 How to Vote

2.2 Voting Timeline

3 Poll Structure

3.1 C++23 Polls

3.1.1 [P1885R10] Naming Text Encodings to Demystify Them

3.1.2 [P0792R8] `function_ref`

3.1.3 [P1223R3] `find_last`

3.1.4 [P1169R3] `Static operator()`

3.1.5 [P2553R1] Make `mdspan size_type` Controllable

3.1.6 [P2554R0] C-Array Interoperability Of `mdspan`

- 3.1.7 [P2540R0] Empty Product For Certain Views
- 3.1.8 [P2538R0] ADL-Proof projected
- 3.1.9 [LWG3646] `ranges::view_interface::size` Returns A Signed Type
- 3.1.10 [P2520R0] `move_iterator` Should Be A Random Access Iterator
- 3.1.11 [P2499R0] `string_view` Range Constructor Should Be Explicit
- 3.1.12 [P2549R0] `unexpected` Should Have `error` As Member Accessor
- 3.1.13 [P2517R0] Add A Conditional `noexcept` Specification To `apply`
- 3.2 C++26 and Technical Specification Polls
 - 3.2.1 [P2300R5] `std::execution`
 - 3.2.2 [P1083R5] `resource_adaptor`
 - 3.2.3 [P1202R4] Asymmetric Fences

References

Informative References

§ 1. Introduction

This paper contains the decision polls that the C++ Library Evolution group will take in 2022-05.

§ 2. Voting

These decision polls will be conducted electronically; see [\[P2195R2\]](#) for more information on electronic voting procedures.

All committee members may vote, but if you have not participated in the Library Evolution discussions of a poll, please choose to not vote.

§ 2.1. How to Vote

[Vote here \(C++23 polls\).](#)

[Vote here \(C++26 and Technical Specification polls\).](#)

A `documents.isocpp.org` account is necessary to vote. If you have an `isocpp.org/papers` account, a `documents.isocpp.org` account has been created for you. Just go to `documents.isocpp.org` and reset

your password. Email [Bryce Adelstein Lelbach](#) if you do not have an account or are having trouble accessing your account.

If you see "Form not found" when you go to the above link, you are not signed in to documents.isocpp.org. Go to documents.isocpp.org and sign in first.

You will not receive a confirmation email after voting. The Library Evolution chairs will send a confirmation to all voters before the close of the poll.

If you need to change how you voted or have any questions or issues about voting, please email [Bryce Adelstein Lelbach](#).

§ 2.2. Voting Timeline

- 2022-04-07: Draft polls distributed by mailing list.
- 2022-04-19: Final Library Evolution discussion telecon on the polls.
- 2022-04-22: Start of the polling period.
- 2022-05-19: End of the polling period.
- 2021-05-23: Chairs share results and summarize outcomes.

§ 3. Poll Structure

Each poll consists of a statement; you vote on whether you support the statement. All polls will be 5-way polls; you'll vote either "strongly favor", "weakly favor", "neutral", "weakly against", or "strongly against".

All committee members may vote, but if you have not participated in the Library Evolution discussions of a poll (in-person, over telecon, or over email), please consider whether you sufficiently understand the topic to be able to vote in an informed manner. If you do not, please choose to not participate in the poll.

If you do not want to participate in a poll, select the "I do not want to participate in this poll" option. Those who do not participate in a poll will not be counted or recorded. Voting neutral is not the same as choosing to not participate; please don't vote neutral if you did not participate in the discussions of the poll.

Each poll has a comment field. Please write a few sentences explaining the rationale for your vote. We recommend drafting your comments in a text editor and then pasting them into the polling system.

Poll results and selected comments will be shared with Library Evolution after the end of the polling period, including attribution of your votes and comments.

If you want to discuss the polls or how you plan on voting, please start an email thread on the [Library Evolution mailing list](#).

You will not receive a confirmation email after voting.

If you need to see how you voted, change how you voted, or have any questions or issues about voting, please contact the Library Evolution chair.

§ 3.1. C++23 Polls

Polls phrased as "Return X" indicate that the paper was sent to Library Working Group for C++23 in the past, and Library Working Group returned it to us with questions.

Polls phrased as "Send X" indicate that the paper has not previously been sent to Library Working Group for C++23.

§ 3.1.1. [\[P1885R10\]](#) Naming Text Encodings to Demystify Them

Return [\[P1885R10\]](#) Naming Text Encodings to Demystify Them to Library Working Group for C++23, classified as an addition ([\[P0592R4\]](#) bucket 3 item).

§ 3.1.2. [\[P0792R8\]](#) `function_ref`

Return [\[P0792R8\]](#) `function_ref` to Library Working Group for C++23, classified as an addition ([\[P0592R4\]](#) bucket 3 item).

§ 3.1.3. [\[P1223R3\]](#) `find_last`

Return [\[P1223R3\]](#) `find_last` to Library Working Group for C++23, classified as an addition ([\[P0592R4\]](#) bucket 3 item).

§ 3.1.4. [\[P1169R3\]](#) **Static operator()**

Send [\[P1169R3\]](#) Static operator() to Library Working Group for C++23, classified as an addition ([\[P0592R4\]](#) bucket 3 item).

§ 3.1.5. [\[P2553R1\]](#) **Make mdspan size_type Controllable**

Send [\[P2553R1\]](#) Make mdspan size_type Controllable to Library Working Group for C++23, classified as an improvement of an existing feature ([\[P0592R4\]](#) bucket 2 item).

§ 3.1.6. [\[P2554R0\]](#) **C-Array Interoperability Of mdspan**

Send [\[P2554R0\]](#) C-Array Interoperability Of mdspan to Library Working Group for C++23, classified as an improvement of an existing feature ([\[P0592R4\]](#) bucket 2 item).

§ 3.1.7. [\[P2540R0\]](#) **Empty Product For Certain Views**

Send [\[P2540R0\]](#) Empty Product For Certain Views to Library Working Group for C++23, classified as an improvement of an existing feature ([\[P0592R4\]](#) bucket 2 item).

§ 3.1.8. [\[P2538R0\]](#) **ADL-Proof projected**

Send [\[P2538R0\]](#) ADL-Proof projected to Library Working Group for C++23, classified as an improvement of an existing feature ([\[P0592R4\]](#) bucket 2 item).

§ 3.1.9. [\[LWG3646\]](#) **ranges::view_interface::size Returns A Signed Type**

Send the proposed resolution in [\[LWG3646\]](#) ranges::view_interface::size Returns A Signed Type to Library Working Group for C++23, classified as an improvement of an existing feature ([\[P0592R4\]](#) bucket 2 item).

§ 3.1.10. [\[P2520R0\]](#) **move_iterator Should Be A Random Access Iterator**

Send [\[P2520R0\]](#) move_iterator Should Be A Random Access Iterator to Library Working Group for C++23, classified as an improvement of an existing feature ([\[P0592R4\]](#) bucket 2 item).

§ 3.1.11. [\[P2499R0\]](#) **string_view Range Constructor Should Be Explicit**

Send [\[P2499R0\]](#) string_view Range Constructor Should Be Explicit to Library Working Group for C++23, classified as an improvement of an existing feature ([\[P0592R4\]](#) bucket 2 item).

§ 3.1.12. [\[P2549R0\]](#) **unexpected Should Have error As Member Accessor**

Send [\[P2549R0\]](#) unexpected Should Have error As Member Accessor to Library Working Group for C++23, classified as an improvement of an existing feature ([\[P0592R4\]](#) bucket 2 item).

§ 3.1.13. [\[P2517R0\]](#) **Add A Conditional noexcept Specification To apply**

Send [\[P2517R0\]](#) Add A Conditional noexcept Specification To apply to Library Working Group for C++23, classified as an improvement of an existing feature ([\[P0592R4\]](#) bucket 2 item).

§ 3.2. C++26 and Technical Specification Polls

§ 3.2.1. [\[P2300R5\]](#) **std::execution**

Send [\[P2300R5\]](#) std::execution to Library Working Group for C++26, classified as a focus ([\[P0592R4\]](#) bucket 1 item).

§ 3.2.2. [\[P1083R5\]](#) **resource_adaptor**

Return [\[P1083R5\]](#) resource_adaptor to Library Working Group for C++26, classified as an addition ([\[P0592R4\]](#) bucket 3 item).

§ 3.2.3. [\[P1202R4\]](#) **Asymmetric Fences**

Send [\[P1202R4\]](#) Asymmetric Fences to Library Working Group for the Concurrency TS v2, classified as an addition ([\[P0592R4\]](#) bucket 3 item).
